## TRIBUNE TELEGRAPHIC DISPATCH. Correspondence of The Tribune.

Buffalo, Saturday, Nov. 7, noon. Cattaraugus Co .- 16 of 28 towns heard from, Young 200 ahead-his majority will be at least

Young IN THE CITY.-The majority of the reports make Wright's majority for Governor over 5,100, and we have humored them in our table, but we do not believe them. We are confident the Official will make the majority under 5,100.

## The Sennte. I. John Townsend, Loco, has about 4,000 plural-

ity in this District. H. H. R. Morris, Barnburner, appears to be elected in the Second District by a small majority. took place on the 9th inst at the subscription rooms. III. IRA HARRIS, Whig and Anti-Rent, has some

IV. We fear Thomas Crook Loco, has beaten JARVIS L. LAKE, Whig. The vote is close, however, and we must hear more definitely from St. Lawrence before we can speak positively.

V. We hope NELSON J. BEACH, Whig, is elected, but all is in confusion as yet. He may be beaten the harvest has been happily abundant. by 1,000 or elected by 2,000, as Oneida and Otsego shall determine. We have no Senate vote from the United States in the room of Mr. McLane, ac, either. George C. Sherman is his Loco opponent. R. B. Miller, Hunker do.

VI. SAMUEL H. P. HALL, Whig, is elected-no mistake. His majority must be large. VII. Gen. ABRAHAM GRIDLEY, Whig of Auburn.

is elected by about 1,000 majority. VIII. FRANCIS H. RUGGLES, Whig, is elected

by 7,000 to 8,000 majority.

# The Assembly. SCHENECTADY has elected a Whig to the Assem-

bly, Broome a Loco; Putnam a Loco instead of a Whig as has been reported. Hine, Whig, is beaten by about 100 majority. Onondaga, pretty surely 2 and 2. Otsego is reported to have chosen one of the 'Independent' tieket, but whether the Whig or not is not stated. Oneida is said to have chosen 1 or 2 Whigs, but we choose to set it down the other way—till we hear farther.

The Whie Candidate for Congress has about 50 majority in the County, and the Hunker County Ticket is elected by an average majority of about 150. This is doing very well for Chemung Co. I told you when at the State Fair that Chemung would be Whig or nearly so. Yours truly,

COLUMBIA County has elected Gould, Whigh (on the Whig and 'Union' tickets) to the Assembly, instead of Haysradt, the Whig Anti-Renter. Miller, the Anti-Renter who was also on the Loco-Foco ticket, is the other Assemblyman. The Anti-Rent Sheriff (Hollenback) and Loco Clerk (Storm.

on the Union ticket) are elected. Gardner has 1800 majority, and the Advocate says Cook and Clowes, Whigs, have 1,500 for Canal Commissioners. We hope but can hardly be lieve this is so; it would give a chance for Cook's election. Sylvester, Whig. has 391 for Congress.

The Weather was quite eccentric upon the day of Election. In New York it rained prodigiously. In the River counties, as far up as this City, it was foggy, part of the day, while at the West it was bright and Summer-like. But the political skies were bright every where.

[Alb. Eve. Jour.

We would have given much Election day to know that the natural skies were bright above the Highlands. We would have trusted the Political skies without a fear.

## Feeling Good. A friend in the Interior, writing us on business.

casually remarks in reference to the Election : "I feel as though I could hag the Locos just for

VOL. VI. NO. 183.

The formation of a naval dépôt at lork seems settled correspondence has appeared in the Cork Examiner, om which it appears that the Government will immeately begin "to creet large coal stores, wharves &c. The steamship Britannia, from Liverpool, arrived from at Boston at five o'clock Saturday morning, making the passage in seventeen and a half days. She brings advices to the 20th ult. The first news by this arrival publicly received in this city came by Telegraph from Albany, the speculators having cut the wires of the Boston Telegraph. We understand that a few speculators had the news in Wallst. considerably in advance of the public generally.

The news is important in a commercial point of view. Grain and Flour are still on the rise. The advance in Wheat since the last arrival averages

much of the public attention. Famine, disease and fied, avo

manifest in continencing the works passed at some of the presentment sessions. A letter from the rector and view of Cong. near Balliarobe, appears in the Dublin papers, in which he states that there has been shameful triding with the people's misery. The cases to which he siludes are so frightful, that we make an extract from the reverend gentleman's letter. He says—
"I know not where the fault lies but fault there is—a fault and neglect involving the lives of many Many families in this neighborhood have been forty-eight hours, from time to time, without food (yet are we quiet and patient under our sufferings.) and how at last did they produce even a scarty supply to carry them on a few days—by mortgaging, in some cases, twelve days pay, whenever the works shall commence, for from three to six days food, according to the number of the family, that is, in plain terms, where six shillings would have bought two stone of oatmeal—it is now at famine price, three shillings a stone—they are pledged to pay twelve shillings.

A large and infential meeting has been held lately at the Royal Exchange, Dublin. It was convened by the Mord Mayor in compliance with a requisition numerous ly signed, and its object was to consider the propelety of applying to Government for an advance of money by way of loan to railway companies, so as to ensole them to give instant employment to the poor. The meeting was addressed by Lord Miltown, Alderman O'Brien, Mr. Collet, and Mr. Butt, the Queen's Counsel. Mr. Butt, spoke strongly against the unproductive employment of road making, which he termed "squandering labor." Various resolutions were passed in accordance with the object of the meeting, which separated with three cheers for the Queen, Lord Besberough, and Mr. Labouchere.

The recent outrages in the south of Ireland elicited a short proclamation from the Lord-Lieutenant, which says: that the English Government has in contemplation to open the ports for the admission of all kinds of the most crowded and most respectable meetings ever held in this city, says the Western Times. to welcome Elihu Burritt to this city and to listen to an address from him on the subject of Universal

Correspondence of The Tribune.
ELMIRA, Nov. 3d, 1846.

H. Gereley—Dear Sir: We have returns from all the Towns but two in this County, and the majority for Wright is about 350, estimating the two towns not heard from the subject.

Wright is about 350, estimating the two towns not heard the methands the large quantity of 5340 packages of wheat the subject.

England is getting Corn from Van Dieman's Land. A vessel arrived in the St. Katharine's Docks from Van Dieman's Land, brought consigned to different hands the large quantity of 5340 packages of wheat the large quantity of 5340 pack

Wheat.

There has been mother skirmish at Aden, the British post in Arabia. A body of 5000 Arabs at tacked the town in broad daylight, but being repulsed they were soon compelled to retire with a severe loss in killed and wounded.

Taliti is still the theatre of conflicts between the natives and the French. A dispatch has been received from Capt. Bruat, dated Papita, June 3d, criving an account of two engagements with the control of the proposition of the pulse attention since my last letter. The opposition newspapers have not ceased to combat it with the intenset energy; and, in so doing, have had frequently to insist upon the danger to France of a rapture with England. The marriage is considered a personal triving an account of two engagements with the natives and the French. A dispatch has been re-ceived from Capt. Bruat. dated Papita. June 3d. England. civine an account of two engagements with the

natives and the French. A dispatch has been received from Capt. Brust. dated Papitas. June 3d. giving an account of two engagements with the natives of Tabiti on the 6th and 30th of May. The French had 500 soldiers and mariners and 200 natives. The Tabitians have been driven from their entrenchments and camps at Prapenoo and Panivia. A brisk fire was opened upon the main body of the French, and masses of stones and rocks were thrown upon them from the tops of the montains which overhang the valley. Mr. Bruat, after reconnoitering the enemy's camp, considered it impregnable, and declined to attack it.

The following abridgment of the expenses of working ships over time is announced. The Commissioners of Customs, by a public order just is sued, allow all ships of every country importing goods in bulk as brimstone, bark bones, linseed, dye wood, guano, hemp, iron, valora, hides, &c. to work between and after the legal hours, without the attendance of a landing surveyor—thereby cutting the expenses to the mere payment of the landing waiter and weigher for their extra at tendance.

An enormous quantity of shipping was at Odessa. Letters from there dated on the 18th Sept. received in Liverpool, state that a fleet of no less than one hundred and fifty merchant vessels arrived at that port the day before, actually putting an end to the scarcity of shipping which had so long prevailed—These vessels were mostly Greek and Italian only six of them being British.

Several of the flax mills in the north of Ireland have been converted into com mills.

The French Ministry are said to have granted the result of the farming of the custof Spain previous to the English fleet being sent to that destination.

The Journal de Haver says that the French first attaches the highest price. People, however, are not quite so sanguine as the Pobats, and on the Bourse a verified panic prevails, every day bringing lower the funds and reliavely shared. Spainle sequence of the first was a treatage of the Duc de Montpensier. Among those them arri

The Journal de Harre says that the French frig-ate l'Andromede and sloops of war Blonde, Pylade, Mer-cer, and steamer Tonnere, under the command of Ad-miral Laplace, are bound, and will soon sail for the Gulf of Mexico.

A number of Catholic missionaries have recently

A number of Catholic missionaries have recently been sent from this country to the United States. The religious newspapers boast that the Catholics are gaining immense success in America.

A letter from Constantinople, published in one of the newspapers, states that the American missionaries have had great success in converting the people. They have already effected 6000 conversions, 3000 being of Americans, and the rest of Turks, Jews and Greeks. Another letter says that the Americans have no success at all, and are very unpopular.

In Paris there has been some rioting of a some-

ouble to reduce them to order.

A recent letter from China says that the compe-

A recent retreatment can make an according to the between the Americans and the British is so great, at the former are selling their cottons at a dead loss, the hope of driving the latter cut of the market; but is said there is little chance of that, as the British have a advantage of drawing their cotton from India, the street market. The Epopus says if England and France do not gree in all things an one wife.

The Epoque says if England and France do not agree in all things, an one point they are united, and that is, to prevent the United States acquiring California. "If they are allowed," says that paper, "to take that country, they will be able to dispute with Europeans the possession of the islands which command the junction of the gulf with the ocean, and will be masters of the commerce of India, China, and the Islands of Oceana." That paper labors hard to stir up dissention about our possessing California.

There is a good understanding between France and Russia. The French Chargé des Affaires has diaed with the Emperor. In this we infer a close alliance on oriental affairs.

ed without effect, has protested formally against the marriage, and has, it is said, particularly declared that Great Britain will never permit any child of the Duc de Montpensier to sacend the throne of Spain. The Embassador bases this protest, first, on the treaty of Utrecht, which provides in the most express and most unmis-

Things in Philadelphia.

PHILADELPHIA, Nov. 6, 1846. The question of "License or No License" was discussed last evening at Franklin Hall before an intelligent and attentive sudience. Mr. Thomas Wattson presided. Mr. J. M. Kennedy offered a Resolution in fabich acknowledges the Queen Isabella.

meeting. mal protest presented by Mr. Bulwer against the mar-riage of the Infanta with the Duc de Montpensier, but its contents have not transpired.

are so lagram, unprovace and mirrorous, that it me law does not afford protection, the people will be tempt-ed to take it into their own hands.

Sheriff Lelar has appointed Thomas Sergeant, lately of our Supreme Bench, as his Solicitor. The ex-Judge is a distinguished Loco-Foco, and this selection is thought to foreshadow a coalition between the Natives Bas follows:
President of the Council and
Minister of War. Marquis Saldanha
Minister of the Kingdom, and
ad interim, of Finance Viscount D'Olireira,
Justice J. J. Valente Farinto,
Marine and Colonies D. Mannel de Portugal e
Castro,
Viscount da Carreira.

Foreign Affairs Viscount da Carreira

thought to foreshadow a coalition between the Natives and Loco-Focos, to attempt to get the City Government from the hands of the Whigs. No such attempt can succeed, for our city has been as well managed by the Whigs as any municipal corporation in the world.

At the meeting of our City Councils last evening, the Common Stanch passed by a vote of 12 to 3 after a warm discussion. Mr. Corotiv's bill authorizing the city io subscribe to 30,000 shares, one and a half millions of the stock of the Central Railroad. The Select Councils adjourned before its passage was smounced and the question will come before them next Thursday. The loan which the bill authorizes the Mayor to make to pay instalments, is redeemable in thirty years.

Sheriff Lelar is determined to put a stop to trotting matches, which have been practised in evasion of our law against horse-racing. 

our harkest continues inactive, pending the ex-pectation of the Britannia's news. Flour is steady at \$5.37. Rye Flour and Corn Meal without change. Wheat has improved in price, with large receipts. Pennsylva-nis Red \$1.10. White \$1.17. Southern Corn dull at 64-cents. Pennsylvania sales at 67. Southern Oats 33. Groceries and Provisions still inactive. In consequence of the firmness of holders of Wheat most of yesterday and today receipts were stones. There is great one may say dreadful misery in Flanders, occasioned principally by the scarcity of food, and by the throwing out of work between 100,000 and 200,000 persons, in consequence of the adoption of machinery in spinning cotton. The price of corn is higher in Belgium than in either France or England.

## SATURDAY, Nov. 6th.

A Washington letter, published in our newspa-pers states that negotiations have been reopened be-tween the United States and the Zollverein, for a treaty of commerce and navigation. Hopes are entertained that they will be crowned with success. They are to be carried on at Washington. the friends of Greenwood Cemetery, and the public, that the Union Ferry Company have consented to rnn a boat. hereafter, regularly, between their dock, at Whitehall, A prison, called the Pennsylvania prison, has been built in this capital for the trial of the American system of solitary confinement. and foot of Hamilton avenue, to commence this day : thus affording the greatest possible convenience to per sons visiting Greenwood Cemetery, and the inhabitants Switzerland.

A revolution broke out in Geneva on Saturday. Oct 3d, in consequence of the refusal of the Council of State to vote for the unconditional dissolution of the league at the catholic cantons. The council significant dissolution of the free corps in the first instance. This vote excited great discontent among the move-

the Art Union Gallery last evening, entirely absorbed in Baxter . seen to ascend from his overcost pocket, and he was discovered to be on fire. The cause of the ludicrous in cident was a cigar, which had been smoking, but had neglected to exunguish as he had intended.

COURT OF GENERAL SESSIONS -Before the Recorder and two Aldermen.—Sentence—Thomas Bram-hall, having pleaded guilty to an indictment charging him with having passed a counterfeit \$10 bill at the late Fair, was this morning brought into Court for sentence. Judgment was suspended and the accused discharged. Judgment was suspended and the accused discharged, on condition of his leaving the country forthwith.

In the case of Camp & Wilkes, indicted for a libel against A. M. C. Smith. Police officer, the Court ordered the indictment to be quashed and stricken from the record, for informality in finding.

# From "Yankee Doodle" for Saturday

Report for the week ending October 9.—The demand has been kept up all through the week with some degree of spirit, and we close with American and Surats being id higher than last Friday. All other kinds are firmly supported. Yesterday we received advices three days later from New York, which pretty fully confirm the accounts previously received as to bad weather. 18,300 American, 3500 Surats, and 1000 Egyptian have been taken on STEAMBOAT STATISTICS .- Yankee Doodle thinks

ite.

Ey the way, we are glad to see by the daily papers, that the Rhode Island "left the whar!" when she started for Boston. We don't know how we could very weil/get on without it.

QUESTION IN MATHEMATICS.—A square multi-

ed by itself produces a cube: but if you multiply non-square by itself, what will be the result? YANKEE DOODLE has contributed the fol

10,000 bales. The sales for the week are 52,500 bales. Another Report.—There has continued a good demand from speculators throughout the week, which was increased upon the receipt of rather later dates from the United States yesterday, and the market has shown much firmness, and a partial advance of 1d, per lb, has been obtained. Speculators have taken 18,300 American, 1000 Egyptian, and 5200 Surat, and exporters 1530 American, 500 Pernam, 100 Maranham, 300 Egyptian, and 300 Surat. There were forwarded into the country unsold last month 450 American, 130 Pernam, and 90 Surat.—The sales for the week are 52,800 bales.

Report for the week are 52,800 bales. wing curious and rare articles to the projected Na-mal Institute:

1. The Wick of a luminous idea.
2. Glove—left—from the hand of Time.
3. A specimen of the land promised the Californians.
4. Glass of the water of the Sea of oblivion.
5. Some of the time and space annihilated by the Magtic Telegraph—mixed.
6. A view of the rear of the shop where the glove was

The sales for the week are 52,500 bales.

Report for the week cading Oct. 16.—Prices are still moving upward. On Monday and Tuesday the market maintained its ground, not only with steadiness, but having also a tendency to advance. Still the transactions were not on a large scele, nor was there any great animation amongst the brokers on Change. But on Wednesday morning, after the arrival of the steamer, whose accounts fully confirmed all the previous reports as to the probability of a short crop, and the certainty of there not being a large one, the demand was universal; and during that day nearly \$2,000 bales of Cotton changed hands at an advance of 4 per lb, the main part of the day's business being transacted by speculators. Yesterday, also, the demand, though not nearly so extensive as on Wednesday, was kept up with much spirit, about Custom House:

Some of the syrup in which the Union must be pre-

served.

9. The name of the painter who died and made no

BURGLARY -The shoe store of D. O'Grady, No.

FALSE PRETENCE.—Frederick Trotter was last night arrested, on complaint of John Wager, charged with obtaining goods by false pretence. day afternoon, at 132 Norfolk-st. It was soon extinguished, with but slight damage.

CERTAIN CURE FOR CANCER.

FF Drs. Shepard & Corlis announce to the public that they have a certain c ure for that most dreadful disease, termed Cancer. Their treatment of this disease is peculiar to themselves; it has been tried for the last 5 years in a great many cases, which have been given up by most of the faculty, and in no one instance the sail failed.

Dr. Shepard has been in ce natant practice in several of the Southern States for some y cars past and has effected a large number of most extraora hary cares. He has in his possession at No. 19 Morray-at. N. York City, certificates and testimonials of several of the cures he has made in the most difficult cases of Cancer that ever came under the cognizance of the most experience. I Surgeon. He has authority from the individuals themselves in refer to the following cases: Brady was arrested at an early this morning on a charge of highway robbery. A woman named Eliza Bartinwell makes complaint that the accused forcibly took from her

ectual means for STRENGTHENING THE SYSTEM,

aid in Constitutional Weakness, as a Preventive for Colds, and in ALL AFFECTIONS OF THE CHEST, the Galvanic Strengthening Plaster will be found of great and permanent advantage.

In PULMORARY CONSUMPTION and in PULMO-NARY COMPLAINTS generally, the Galvanic Strengthening Plaster will DO GOOD. It is not vauntingly offered as a "positive cure" for this terrible and prevalent class of disease; but experience has shown that it can greatly addationate the properties of the most beneficial effects in these distressing afficiences.

numerous testimonials have been received from in highest sources, bearing evidences of the most beneficial effects in these distressing afflictions.

To TO THE LADIES a few words should be addressed. They are respectfully notified that these Plasters are prepared with special reference to their favor and with an earnest desire of meriting it. They have been used by thousands among the ladies of Great Brusin, many among the titled and highest of the realm, and it is candidly stated and believed that their use has ever been stended with positive and uniform success. If it were necessary or advisable, an array of names could be published to the world, as vouchers for the truth, reality and efficacy of the GAL-VANIC PLASTER, which would far outweigh the most glowing encomiums of his friends, or the highest recommendations of the discoverer. The ladies of the United States may be assured that they have at last found a valued friend whose influence can "charm away" at least a migority of the complaints incidental to their varied climate. To Persons Itable to be affected by sudden changes in the weather, and those naturally of a delicate constitution, with the important addition of the Galvanic influence, which is neither impaired nor exhausted, while the action continues. These articles will be found entirely free from those objections which are a constant source of complaint of which they are desired. The sensation caused by wearing them is exceedingly pleasant and agreeable.

DIRECTIONS.

To develope the latent power of the Plaster, and to reader its action effective, the Magnatus Filtin should always be used in connection. The part which is diseased or affected, should first be moistened with the Magnetic Fluid, using a moderate descree of friction with a plees of clean silk, fiannel, or any similar substance. The surface of the plaster is then slightly washed with the Fluid and immediately applied to the affected part. If these simple directions are followed, there is no danger of the Plaster were becoming dry or hard, and time or climate does not affect its efficacy or adhesive qualities.

becoming dry or hard, and time or chinate actions its efficacy or adhesive qualities.

CAUTION.

The celebrity of these Plasters has caused them to be counterfeited by unprincipled persons. The original and only penuine are those lavented and propared by Dr. A. H. CHRISTIES, therefore be sure and obtain CHRISTIES GALVANIC STRENGTHENING. PLASTER, as all others pretending to be galvanic in their influence, are entirely spuring the properties and the continues and the continues and the continues and the continues are entirely spuring the continues and the continues and the continues and the continues are entirely spuring the continues and the continues and the continues are entirely spuring the continues and the continues are continued to the continues and the continues are continued to the

THE ORIGIN OF HANCE'S COMPOUND SYRUP OF HOREHOUND for Coughs, Colds, Bron-

had a Cancer of the longue (a very distra sang case), the posterior half of the tongue appeared to be destroyed; Dr. Shepard cured her in 3 weeks; restored the delicate lone of the painte; the full power of speech as when she was in perfect health, and effected a radical cure.

Mr. Charles W. Smith of Telloution, Tabot Co. Georgia, had 9 Cancers on the face, come on each cheek.) they were of 15 years' standing. A very difficult case. Dr. Shepard successfully straticated, by his peculiar mode of treatment, every one of the 9 Cancers, made a perfect cure, and the wounds were all entirely healed in 30 days; and there was no sear left on his face.

The Hon James Neal of Zebulon, Pike Co. Georgia, had a large Cancer on his right cheek, of over 2 years' standing, it was painful in the extreme, and threatmed to destroy life; under the peculiar and sole treatment of Dr. Shepard, he was entirely cured in 10 days; the Cancer completely extracted and not a soar left on the face.

Mrs. Ford, also of Zebulon, Pike Co. Georgia, had a very distressing and dangerous Cancer on the upper lip, it was of 13 years' standing, and was eating away to the nose; Dr. Shepard extracted the Cancer, and made a perfect cure.

Dr. Wm. Terrell, M. C. of Spartz, Georgia, had a Cancer on the more of the contract of the cancer of the cure of the contract o

Dr. Wm. Terrell, M. C. of Sparts, Georgia, had a Cancer which commenced under the lower lid of the left eye which had spread almost down to the edge of the upper lip; he came on to New-York City, principally to put himself under the care of Dr. Shepart, who cured Dr. Terrell on the faculty) resided during the time of nis treatment, at No. 13 Murray-st, and left for home (perfectly cured) last Saturday week.

Drs. Sherand a Costus have their office at No. 19 Murray-st. New-York City, where they are ready to treat and descriptions of cases of Cancer. They have the certificates and testimonials in the above cases, with numerous others, of a similar character, to attest the efficacy and efficiency of their mode of treating every variety and description of Cancer.

CHRISTIE'S GENUINE GALVANIC

STRENGTHENING PLASTER IMPREGNATED with the Tigotro-Magnetic Principle
and used in connection with Unrative Magnetic Finish.
That season of the reserve the planter of a finish and used with the greatest benefit, is just approached therefore deemed proper to therefore deemed proper to therefore the CALVANIC STRENGTHENING PLAST N
which is confidently asserted to be the most selfs prompt and effectual application ever discovered—to words—

THE BEST PLASTER IN THE WORLD

THE SEST PLASTER IN THE WORLD.

Some of the most distinguished physicians of Greaturalin have given their hearty approval of this discovery, regarding it as the most beautiful, ingeniods and successful application of the mysterious agent which has ever been introduced.

This truly wonderful preparation is in resilty a truly compound, uniting all the efficacious powers of the health-restoring and life-giving accents, Galvanian, Electricity and the Magnetic Power. These varied influences so approved and so beneficial as medical applicances, are her united in a form the most elegant, effectual and convenient, having the advantages of sometime contact with the affect clayarts, and thus supplying the mysterious currents in a constant and united stream, when it she bean lost by discusse, or its deficient in its proper and healthful action for any cause whatever. Thus it is that the GALVANIT ELESTER is effectual in sobdium persons critically, and thereby preventing depression of prints, equalizing animal lost, reforming the balance of the circulation, promoting the healthy scentime of the irrer, vaderys and the plandular system to general, removing gaussiands affections, acting as a general tonic to the nervous system, and allaying morbid irritation without subsections. If y restoring circulation, it prevents and permanently removes colders in the hand and feet, together with the long train of diseases which accompany these unpleasant sensations.

These articles are therefore offered as an important ad-

pleasant sensations.
These articles are therefore offered as an important adinnet to the genuine Galvanic Rings and modifications, acting upon the same principle, with the combined advantages as stated above. They are confidently recommended
for the speedy cure of RHEUMATISM,

RHEUMATISM,
ACUTE OR CHRONIC, IN ALL NERVOUS AFFECTIONS AND
AS A POSITIVE REMEDY IN CASE OF FAIN AND WEAKNESS IN THE CHEST OR BACK, FAIN IN THE SIDE,
IN ASTIMATIC AFFECTIONS, AND IN WEAKNESS OR OFFRESSION OF THE FULNOMARY OKGANS, IN SPINAL COMPLAINTS.
Their effects are of the most DECTURO character and they
have often been used with Complete Success. They are
also of great advantage is, Pains and Weakness of the
Breast. And are highly recommended for many of those
complaints to which females are especially liable. As an
effectual means for

litated by disease or other causes, s aid in Constitutional Weakness, as a
